**Project Design Phase-II**
**Solution Requirements (Functional & Non-functional)**

| | |
|---|---|
| Date | 10 September 2026 |
| Team ID | SWUID2026190374 |
| Project Name | ServiceNow-Based Employee Laptop Request Application |
| Maximum Marks | 4 Marks |

**Functional Requirements:**

Following are the functional requirements of the proposed solution.

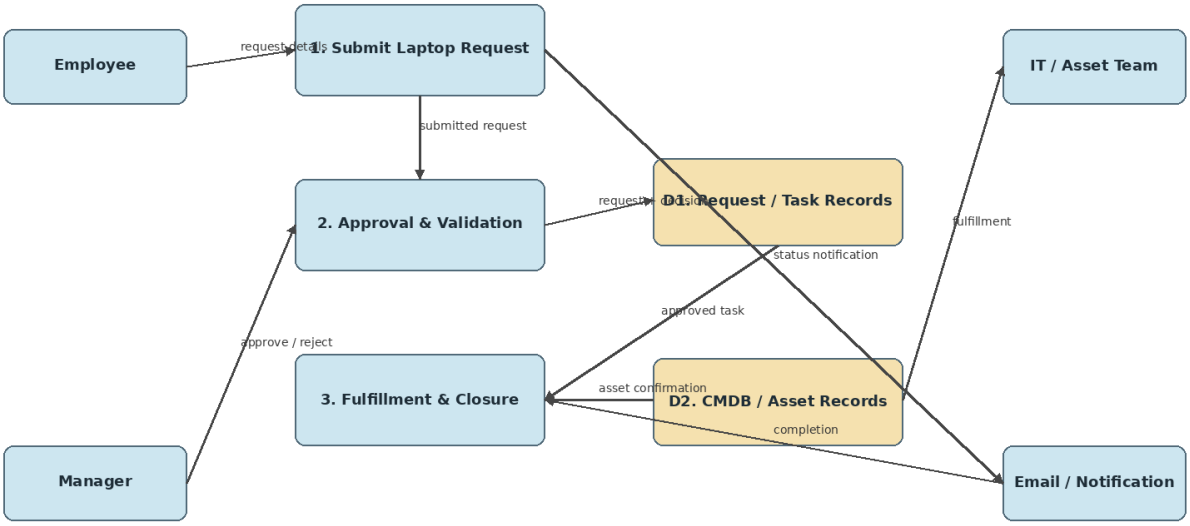

| FR No. | Functional Requirement (Epic) | Sub Requirement (Story / Sub-Task) |
|---|---|---|
| FR-1 | Employee Laptop Request | Submit request / Capture employee details / Select laptop type / Add justification |
| FR-2 | Manager Approval | Route to manager / Approve or reject / Record decision |
| FR-3 | IT & Asset Validation | Validate eligibility / Check current asset / Confirm inventory |
| FR-4 | Fulfillment & Closure | Create IT task / Update progress / Record completion |
| FR-5 | Notifications & Tracking | Notify stakeholders / Show status / Maintain history |
| FR-6 | Reporting & Administration | Filter requests / Monitor lifecycle / Track SLA |

**Non-functional Requirements:**

Following are the non-functional requirements of the proposed solution.

| FR No. | Non-Functional Requirement | Description |
|---|---|---|
| NFR-1 | Usability | Guided catalog form, mandatory fields and clear request states. |
| NFR-2 | Security | Authenticated access, roles and ACLs enforce least privilege. |
| NFR-3 | Reliability | Approval and fulfillment actions are recorded with controlled state transitions. |
| NFR-4 | Performance | Efficient queries and automated workflow minimize manual processing and unnecessary client work. |
| NFR-5 | Availability | Application uses the managed ServiceNow platform and its workflow services. |
| NFR-6 | Scalability | Additional laptop types, approval rules and fulfillment teams can be added without redesigning the core workflow. |

## Data Flow Diagram – Employee Laptop Request

**Employee → ServiceNow request → Manager approval → IT/Asset validation → Fulfillment → Notification → Closure**
